

SCANIA CAMERA SYSTEM

CITY SOLUTION - 360 AREA VIEW SYSTEM FOR YOUR SAFETY

THE AREA VIEW SYSTEM FOR DDU AND CID

Scania introduce an updated system updated specifically for urban use. The system show a 3D view in monitor, where also the GSR camera can be used. For truck applications with more cameras needed, a 10" monitor can be added.

OBJECT DETECTION FUNCTIONALITY

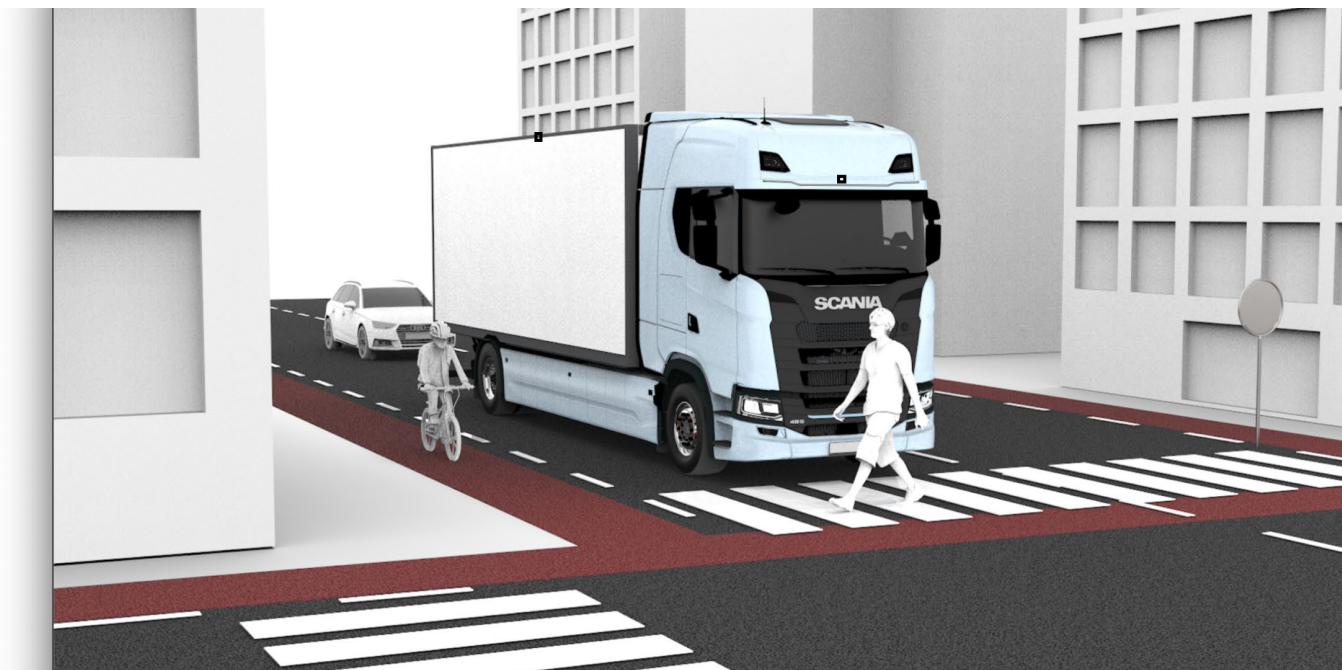

Add object detection to Scania camera system

Just connect the box between desired camera and DDU and the system show object detection. This is pre-set to detect pedestrians and bicyclists. but programmable to also detect other items as cars and buses.

RECORD DETECTION ON ALL POSSIBLE CAMERA VIEW

Our DVR box are easily recording incidents, that are needed for accident investigations and insurance matters.
